OPERATOR OF THE NNPC/CHEVRON JOINT VENTURE

TENDER OPPORTUNITY PROVISION OF ENGINEERING SERVICES AGREEMENT V (ESA V) FOR MAJOR CAPITAL PROJECTS NipeX Tender No – CNL.00000298

1. INTRODUCTION:

Chevron Nigeria Limited invites interested and prequalified companies with relevant experience for this tender opportunity for provision of Engineering Services Agreement 5 (ESA 5) for major capital projects to support CNL's production Activities. Engineering Services are required to execute Company's wide range of operational activities within the Escravos Operations (western, central, and eastern) field locations for terminal, offshore, onshore and/or swamp facilities (or at other locations) as may be required to support Company's ongoing oil and gas production activities.

The services are estimated to commence in fourth quarter of 2024 for Five (5) years primary term with an optional one (2) year extension period.

2. SCOPE OF WORK:

The scope of work for the services shall include but not limited to the provision of skilled, qualified and certified personnel, supervision, services, transport, testing devices, equipment, tools, consumable materials and/or every item of expense necessary for the rendering Engineering Services to Company, 24 hours per day, 7 days per week, on an "as and when required" basis and in a safe manner to plant, assets and personnel at all Company's facility locations (Escravos, offshore, onshore, etc.). Furthermore, successful companies would be expected to have self-sustaining operations and capabilities to provide any aspect of the scope from personnel only who are qualified and able to communicate fluently in English, to provide full services, including equipment and consumables, as may be required.

Detailed Services Description:

The scope of work for the Engineering Service Agreement 5, includes but not limited to the following:

- Provision of engineering services to support CNL's Facilities Engineering Projects portfolio.
- Engineering services required shall include feasibility studies, Front End Engineering and Design (FEED), Detailed Engineering Design (DED), Follow-On Engineering (FOE) and procurement support of long lead equipment and material items for CNL's portfolio of engineering projects.
- Typical Facilities Engineering project portfolio is comprised of oil, gas and water handling facilities which shall not be limited to platform installations and modifications, oil and gas terminal facility modifications and additions, and infrastructure projects (buildings, roads, airport facilities, community development projects) in CNL's office locations, onshore, swamp and offshore operational areas.
- Provision of sufficient infrastructure and personnel to support all project management activities including project controls, and document controls, related to the delivery of engineering services for the duration of the contract.

3. MANDATORY TENDER REQUIREMENTS:

To be eligible for this tender exercise, interested bidders must have the requisite NUPRC permit, NCDMB NOGIC JQS registration and be **pre-qualified and 'live' under 3.01.01-Project Administration Services** and at least two (2) other Product Code Categories in NipeX Joint Qualification System (NJQS) database listed below:
