

THE SHELL PRODUCTION AND DEVELOPMENT COMPANY OF NIGERIA LIMITED
TENDER OPPORTUNITY: PROVISION OF PRESERVATION SERVICES FOR STORED MATERIALS IN SPDC
WAREHOUSES (WEST)
NIPEX TENDER NUMBER: SPDC.00000555
TENDER REF: CW856976

1.0 INTRODUCTION

The Shell Petroleum Development Company of Nigeria Limited (SPDC) in its role as Operator of the NNPC/SHELL/TEPN/AGIP Joint Venture hereby invites reputable and competent registered Nigerian companies (NUPRC, NMDPRA and FMENV registered and licensed) with proven experience in the **Provision of Preservation Services for Stored Materials in SPDC Warehouses (West)**, listed in the scope of work below, to apply for inclusion into the bid.

The proposed contract will commence tentatively in Q1 2025 and remain active for a five (5) year duration, with an option to extend for two (2) years.

Please visit the Nigerian Petroleum Exchange Portal www.nipex-ng.com for further details.

2.0 SCOPE OF WORK

The scope of work includes **Provision of Preservation Services for Stored Materials in SPDC Warehouses (West)**. The scope of work for the Provision of Preservation Services for Stored Materials in SPDC Warehouses (West) includes but not limited to the following:

General

Contractor shall provide the Preservation services in accordance with the terms and conditions of this Contract. The Work to be performed generally consists of the successful implementation of the work scope for inspection and preservation of stock materials including but not limited to Mechanical seals, gears and couplings, bearings, spools, Heat exchangers, heater bundles, Gas Turbine and Spares, Internal Combustion Engines and Spares, pumps and spare parts, Compressor and spare parts, Transformers and Electric Motors, Process instruments and level controllers, Valves, Fittings and Flanges, Pipes, Bolts and Nuts and Electrical Cables and Conductors, in Company's main Warehouses.

Contractor shall be responsible for the provision of consumables, tools or equipment required for any preservative maintenance task. The Contract shall be output based; equipment, consumable, inspections, and personnel costs shall be factored into the preservation services rates. There shall be a service rate for mobilization/demobilization to cover accommodation and other logistics expenses.

- The services shall be called off when required and with specified quantities as determined by Company.
- Contractor shall provide the services in Company's warehouses.
- Contractor shall provide and mobilize all resources including personnel, tools, equipment and consumables necessary to perform the services in accordance with the contract, including Logistics accommodation and feeding (for both Land and Swamp).
- Contractor shall provide the services in accordance with Company safety standards, using good work practices by properly skilled, experienced and suitable personnel and that the materials deployed for work are new, free from defects and suitable for their intended purpose.
- Contractor shall comply with all instructions with regards to the services that are issued by Company. Contractor shall perform the services in accordance with the requirement of the Contract with all proper skill and care and in accordance with good practice and in compliance with all relevant laws and regulations.
- The Contractor shall notify the Company of any matters in the Contract that may, in the opinion of the Contractor, be in conflict with any applicable and relevant laws and regulations.
- Contractor shall use competent and qualified personnel throughout the duration of this Contract.
- Contractor should also provide the PPEs, HSE materials and accessories as required per activity.
- Contractor shall provide TBOSIET (Tropical Basic offshore safety induction and Emergency Training) certificate and OSP for at least 2 personnel for Swamp location.

Specific scope of work

SPDC West Asset Warehouses: Warri Warehouse (Ogunu) and Swamp location Forcados store.

All services shall be rendered by the Contractor in line with approved preservative maintenance job routines and in accordance with Company approved standards. The scope of work shall include but not limited to the following:

- Inspection and where necessary, testing of equipment– Compressors, electric motors, engines, Valves, pumps, heat exchangers, fans & coolers and items status reporting.
- Preservation with nitrogen/ top up of Nitrogen gas contained in a pressure vessel when required.
- Packaging and wrapping with appropriate material (Transparent film, bubble wraps, box etc.) as required, including specialized packaging where applicable.
- Apply recommended lubricants on specific items as advised.

- Carryout surface preparation, removal of rusts and coating repairs application when required, and painting.
- Carryout electrical insulation (IR) testing for electric motors and valve stroking and provide test reports.
- Corrosion treatment with rust removers and volatile corrosion inhibitors (VCI)
- Conduct bolt torquing and tensioning using bolt tensioning Equipment when required.
- Submission of reports for all activities carried out.
