### **1.0 Introduction**

Shell Nigeria Exploration and Production Company Limited (SNEPCo) in its role as operator of the NNPC/SHELL/TEPN/AGIP Joint Venture, in its capacity as Operator of Oil Mining Lease 118 (OML 118) on behalf of itself and other Co-Ventures consisting of Nigerian Agip Oil Company Limited, Total E&P Nigeria and Esso Exploration and Production Nigeria (Deepwater) Limited under a Production Sharing Contract (PSC) with Nigerian National Petroleum Corporation (NNPC) wishes to contract out the **Provision of Production Chemicals & Technical Services for Bonga FPSO**.

### **Contract Justification**

Production Chemicals and Technical Services support the upstream business through the application of chemistry knowledge to the entire production system in order to maintain production and safeguard asset integrity. This is done by ensuring safe and environmentally responsible deployment of chemical applications, combining fit-for-purpose system design with operational vigilance on the fluids used for drilling and completion of wells, on flow assurance and on fluids processing and product quality. As oilfields age, the need for chemicals (specialty and commodity) to ensure steady production increases and thus, drives systems improvements over time. Hence, production chemicals (specialty and commodity) and accompanying technical services play a critical role as part of key production support materials and services required for continuous flow of hydrocarbon.

### **2.0 Scope of Work**

The Provision of Production Chemicals, Technical Services, Analytical Consumables and Equipment for Waterflood and Process (oil, produced water & gas) treatment. The production chemicals cut across specialty and commodity chemicals for oil and gas process application.
