

**CHEVRON NIGERIA LIMITED**

R. C. 6135

OPERATOR OF THE NNPC/CHEVRON JOINT VENTURE

**TENDER OPPORTUNITY**  
**PROVISION OF CEMENT PRODUCT AND SERVICES (JV)**  
**NipeX Tender No – CNL.00000318**

**1. INTRODUCTION:**

Chevron Nigeria Limited (CNL) operator of the Nigerian National Petroleum Corporation (NNPC)/CNL Joint Venture, invites interested and prequalified service providers for this tender opportunity for the Provision of Cement Product & Services at company's operational areas. The proposed award strategy is multiple contracts of five (5) years term with an option of two (2) year extension.

**2. SCOPE OF WORK:**

The scope of work for the services includes but not limited to the following:

- Personnel, Equipment, Materials, and deliverables for the provision of cementing and related services in support of Company's operations. As a minimum, contractor shall be responsible for the supply and provision of:
- Cementing services.
- Cementing equipment or systems.
- Cementing products or materials.
- Consumables.
- Other related equipment and personnel
- Provide facilities and pumping equipment based in the COMPANY operational base.
- Provide equipment required to support a full line of oilfield cementing operations. Equipment includes batch mixers, cement pumping units, bulk tanks and air compressors, casing accessories, etc. Operations to include but not limited to casing cementing, squeezing, plugging, and acidizing. Contractor to supply a full line of products (cement, chemicals, and other additives) to support these operations.
- Provide 24-hour cement lab facilities (with security and back-up utilities) with the capability to run multiple slurry tests simultaneously. For each job, Contractor will provide highly experienced representative to plan, provide cement engineering services, collaborate with operator engineers, coordinate materials and equipment, coordinate laboratory testing, and provide concise reports on lessons learned and best practices on a 7 day per week basis.
- Provide technically competent and qualified personnel capable of checking status of job-readiness, setting-up, and shop testing tools/equipment prior to shipment to the rig, coordinating materials and equipment movements and executing the job on location.
- Contractor shall have bulk plant, storage, and testing facilities to support JV cementing operations.
- Contractor to provide Job planning engineering analysis, which is not limited to cementing software simulations hydraulics calculations, cement volume calculation, slurry design, and casing centralization.
- Provide office support personnel located in Areas of Operation required to provide logistical, planning, laboratory, and technical support for Drilling and completion fluid services.
- Prepare and submit necessary detailed technical reports and other documentation as directed.
- Inspection documents, QA / QC certificates and other related documentation for products and equipment being sent out drilling.
