CHEVRON NIGERIA LIMITED

R. C. 6135

OPERATOR OF THE NNPC/CHEVRON JOINT VENTURE

TENDER OPPORTUNITY PROVISION OF OIL COUNTRY TUBULAR GOODS (OCTG)

NipeX Tender No – CNL.00000338

1.0 INTRODUCTION:

Chevron Nigeria Limited (CNL) Operator of NNPC/CNL Joint Venture, invites interested and pre-qualified companies for the Provision of Oil Country Tubular Goods Services to support its JV Onshore drilling and completion operations. Availability to commence Provision of Services is required for an anticipated Commencement Date: Second Quarter of 2026 with a Primary Term of five (5) Years with a possible Optional Term of two (2) Years.

2.0 SCOPE OF WORK:

Scope of work and services include the following:

The scope of work includes but is not limited to the following: -

- Contractor shall procure plain end OCTG from Chevron approved mills.
- All small OD OCTG to be manufactured per API-5CT 11th Edition.
- Contractor shall maintain functional in-country threading facility and maintain valid API and Premium license for threading required connections in-country or have valid partnership (MOA) with an in-country threading facility with valid API and Premium connection license for threading required connections.
- Contractor's threading facility to have at least primary and backup threading lines and dedicated support activity stations.
- Services to be carried out by contractor on procured small OD plain end pipes include swaging, threading, phosphating, stress relieve, thread gauging, NDT inspection and buck-on.
- Contractor to maintain a continuous production line where full length OCTG joints can be conveyed through dedicated support stations assisted by pipe roller and conveyor systems.
- All large OD OCTG to be manufactured per API 5L.
- Large OD connectors to be sourced from Chevron approved manufacturers.
- Contractor shall have in-country facility, capability and experience for welding large OD connectors to plain end pipe.
- Delivery of threaded OCTG to Chevron designated location.
- Handling and Storage Capability of procured goods.
- Maintenance of a detailed inventory of company equipment stored within contractor's base
- Bidders shall provide a detailed schedule plan from manufacture to delivery at Contractor's base.
- Contractor will supply Quality Plan outlining procedures to ensure that Company receives equipment that has been properly prepared for utilization. Dedicated QA personnel will be supplied by contractor to ensure rigorous adherence to Contractor's Quality Plan.
- Contractor to maintain quality certifications, and associated audit reports, API and premium connection license availability and associated audit reports, quality management system, quality plans, tubular traceability and management across various stations, and storage capacity and protocols.
